25 YEAR RE-REVIEW

SUBJECT: Weekly Activity Report No. 25
17 June - 23 June 1959

I. SIGNIFICANT ITEMS:

None

II. OTHER ITEMS:

1. My military leave begins this weekend. I look forward to teaching again, and to the particular challenge of instructing on a topic about which few of us are very familiar --- the legal authorities of a military commander over civilian populations during emergency situations such as natural disasters, civilian riots, and holocausts which are enemy induced.

2. Through the fine cooperation of [] and [], we were able to be well represented in the University of Chicago research project inquiring into executive judgment. [] proposed likely names as members of a control group and left the final urging up to me. All of the 15 selected participated in the testing phase. There were about 60 others from various federal offices in Washington. I have sent a copy of the research questionnaire to [] for his examination. The questionnaire is to be filled in by a supervisor or co-worker of each man tested. In late summer the control group will be tested again.

4. [] spent some time with the Information Branch obtaining up-to-date data on achievement or maintenance awards earned by 62 VLTP students who had completed a block of instruction in one of six languages []

[]). We understand that these data are to be used in a LAS progress report to DTR on the VLTP. [] was able to provide the information sought except on several cases then "in process"; [] upon return from a brief leave, completed the record for Edith.

5. In response to [] suggestion, A & E is now preparing for us an alphabetical listing of personnel who have completed PETB and FLATB. With us screening training requests and using the A & E list here we can relieve A & E of the time and effort required in repeatedly searching to verify that a prerequisite test has been taken, and eliminate an interchange of phone calls between the two offices on many individual cases.

6. Beginning FY '60, in preparing final reports on language awards the Information Branch will adopt procedures that grew out of the []. Ted acknowledged that these were only minor suggestions but too, we know that they will contribute to streamlining and to concentration of responsibility in this element of the awards program.

7. Since we plan to withhold further awards actions until next fiscal year, the attached summary represents the complete story for FY 1959.

8. The University of Michigan has received a grant of \$400,000 from the Carnegie Corporation to establish a Center for the Study of Higher Education. The University's program of preparing college teachers and administrators and of research and field work will be expanded. Fellowships at the pre and post-doctoral level to stimulate the professional preparation of college administrators are planned.
